FULL-STACK DEVELOPER

As a passionate Full-Stack Developer with over 4 years of experience, I thrive in dynamic, team-driven environments where I can tackle complex challenges and deliver high-quality solutions. I'm always eager to learn, adapt to new technologies, and refine my skills. A proactive, solution-focused, and organized team player, I excel at collaboration and consistently drive excellent results in development projects.

EXPERIENCES

Team-lead & Frontend Developer:

Fiare Oy | Tammasaarekatu 1, 00180 Helsinki | November 2021 - March 2025

- Worked on BOLD CMS to create websites for customers' newspapers.
- Team-leading and developing Frontend project of customers.
- Training customers on CMS+Reactjs related languages and developing websites.

Ilkka-Pohjalainen news site

A CMS-related web-app using React.js, Node.js, and Malibu. Integrated Tulo SSO, Coral Comment, Chartbeat, Voice intuitive etc., for enhanced user interaction. Other local sites built with same technologies- [Järviseuutu](#), [Jurvan Sanomat](#), [Viiskunta](#), [Komiati](#) and [Suupohjan Sanomat](#).

Deiplus Streaming Web App

A responsive web app featuring live radio streaming, podcasts, and video content using JWPlayer and Radioplayer. Integrated user authentication, paywall, and profile functionalities.

Fiare Media Tools: Enhancing Digital Media Solutions

Fiare Media Tools offers digital solutions for media houses, specializing in content management, layout automation, and editorial planning. I worked on designing layouts and integrating third-party tools to enhance functionality and user experience.

Full Stack Developer

Integrify | Helsinki | August 2020 - March 2021

- Worked as the team-lead.
- Taking numerous responsibilities in front-end development with JavaScript and TypeScript and applied frameworks and other tools such as React.js and Redux among many others.
- Contributing to the back-end development of various projects with Node.js and Express.js.
- Building and managing databases with MongoDB and PostgreSQL.
- Conducting software tests with Jest.
- Collaborating with other developers of different seniority via GitHub Actions.

Full Stack Developer Intern

Signant Health | Helsinki | August 2019 - December 2019

- Contributed to building the REST APIs in Node.js with the Express.js library.
- Contributed to creating a schema for the MongoDB database.
- Completed various tasks related to the test automation automated in Robot Framework with the Selenium library and continuous integration with Jenkins.

B.A. in Humanities and Social Sciences
Tribhuvan University | Kathmandu, Nepal | January 2000 - July 2004

HOBBY PROJECTS

Hotel-Booking-System:

Modern hotel booking app built with **Next.js**, **Redux**, **MongoDB**, **Python (Flask)**, and **OpenAI**. Features include user authentication, profile management, advanced filtering options, and an integrated AI-powered chatbot for handling general user queries.

Portfolio-App:

My personal portfolio web app to showcase my skills, tools, and projects with a clean, responsive design. It features secure authentication via NextAuth (**CredentialsProvider** and **GoogleProvider**).

Family-App:

A responsive family website showcasing memories and real-time interaction, featuring live chat (**Socket.IO**) and AI chat (**OpenAI**). Tech stack includes **Next.js (TypeScript)**, **Bootstrap 5**, **MongoDB**, **NextAuth**, **Cloudinary**, and backend services via **Express.js** and **Flask**

Library-Management:

CRUD application for library book loan management using React.js, Express.js, and MongoDB.
